

Manual

Track & Trace system

my.vanduuren.com

Version 2.1

1. Registering and logging in

Before you is the manual for the use of the Van Duuren Districenters Track & Trace environment. You can easily trace your consignment via our client portal.

Step 1.1

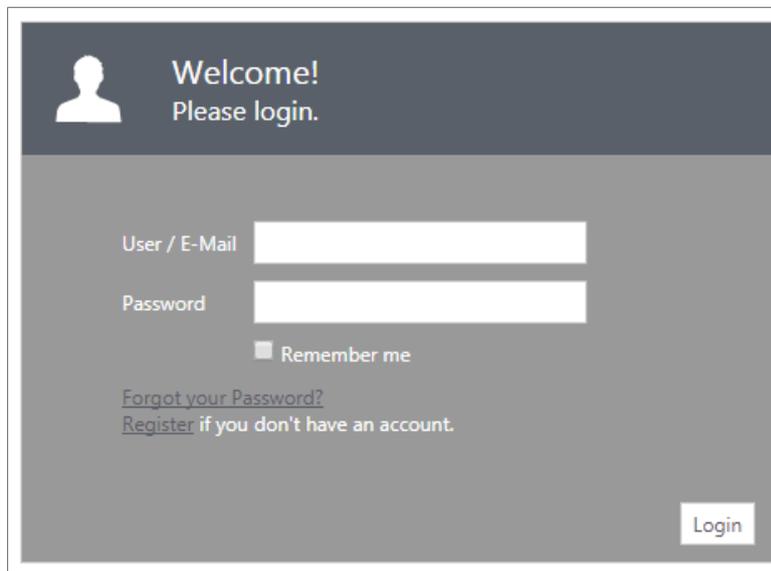

You must have an account before you can log in to our client portal. Van Duuren will arrange your registration. You will receive three e-mails:

1. Containing your user name;
2. Confirmation that your account has been activated;
3. Confirmation of your personal password.

Step 1.2

In order to log in, go to the website: <http://my.vanduuren.com/>

You can then log in using your user name or e-mail address and your password.

The screenshot shows a login interface with a dark header containing a user icon and the text "Welcome! Please login.". Below the header are two input fields for "User / E-Mail" and "Password". A "Remember me" checkbox is located below the password field. At the bottom left, there are links for "Forgot your Password?" and "Register if you don't have an account.". A "Login" button is positioned at the bottom right of the form area.

Step 1.3

After you have logged in, you will see the following screen.

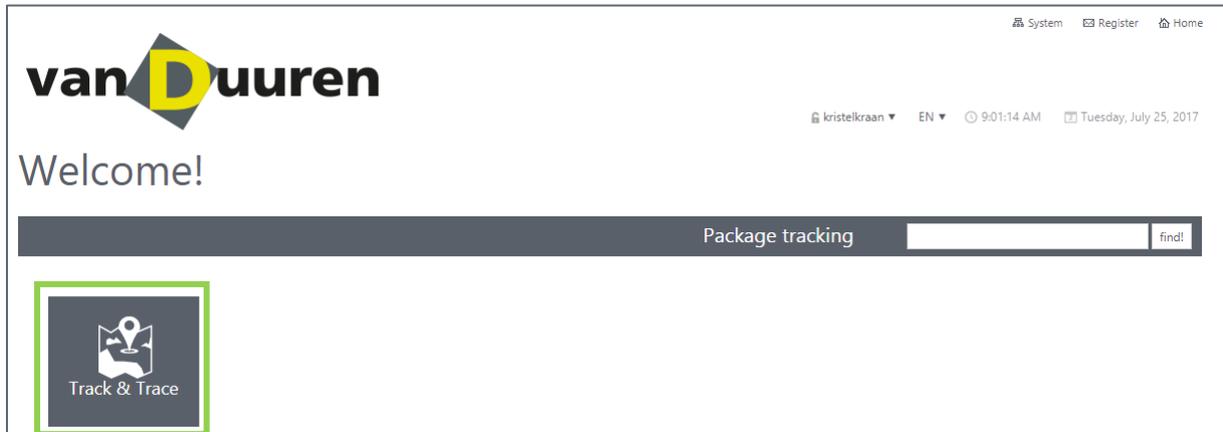

The screenshot displays the user dashboard. At the top left is the "van Duuren" logo. In the top right corner, there are navigation links for "System", "Register", and "Home". A green-bordered box highlights the user's account information: "kristelkraan", the language "EN", the time "9:01:14 AM", and the date "Tuesday, July 25, 2017". Below this, the word "Welcome!" is displayed. At the bottom, there is a "Package tracking" section with an input field and a "find!" button.

At the top right-hand side, just above Package tracking you will see which account you are logged in to, which language has been selected and the current time, day and date.

2. Track & Trace

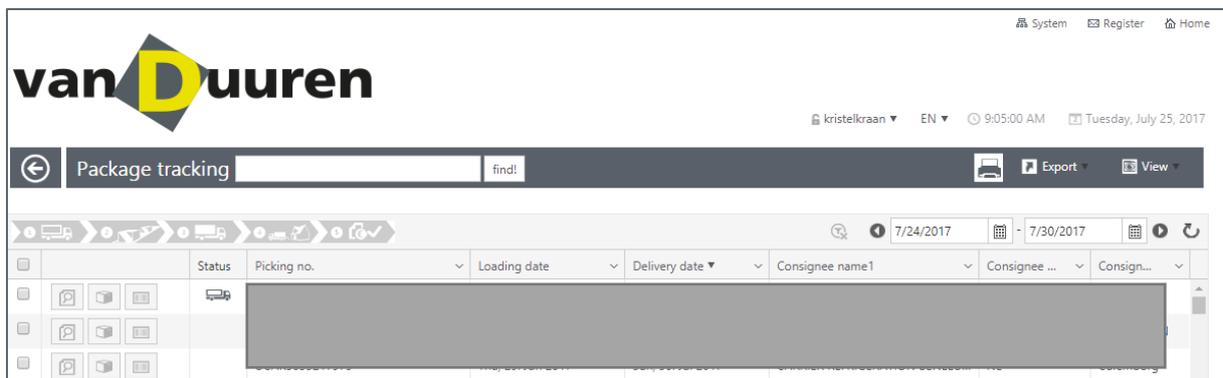

Step 2.1

The screen shown below will appear automatically once you have logged in. Click on the tile “Track & Trace”.

Step 2.2

After you have activated the “Track & Trace” tile you will see the screen shown below. On the screen you will see various information blocks that will provide you with the information you require. We will explain these to you step by step.

Step 2.3

In the field “Package tracking” You can fill in your own reference number.

In the grey field you will see the button marked Export; via this button you can export the data shown for use in your Microsoft Excel environment.

Step 2.4

Under the field “**Package tracking**” you will see the following icons; the meaning of these icons is described hereunder.

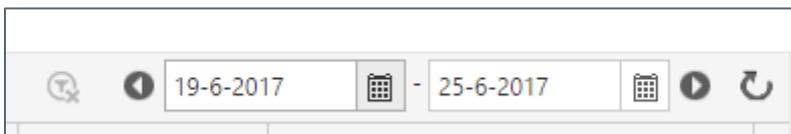

The icons will be displayed in yellow as soon as the action described has been completed.

1. In transit
2. Consignment at HUB
3. Out for delivery
4. Consignment delivered
5. POD available

To the extreme right of the icons you will see another filter function. Here you can enter the time range you want to check up on.

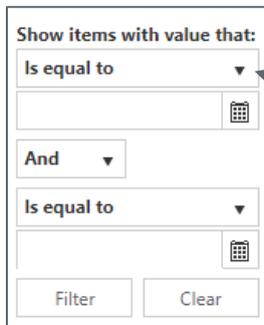

Under the (yellow) icons you will see the following fields: Status / Order no. / Loading date / Delivery date / Consignee Name1 / Consignee country code / Consignee city.

In the screenshot below you can see what happens when you click on the arrow.
Enter the filter that you require, then click on the blue tile bearing the white text: 'Filter'

As a result you will be given only the information that you have requested within the filter that you have set.

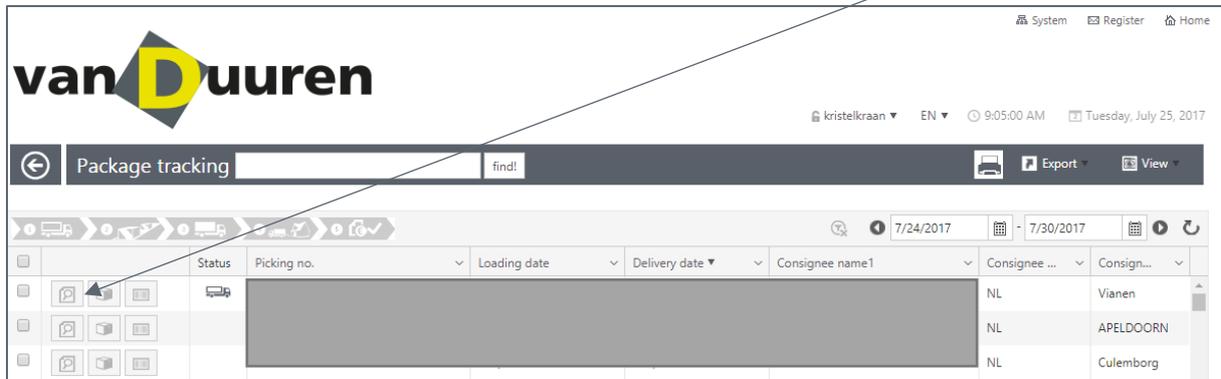

The screenshot shows a vertical filter menu titled "Show items with value that:". It contains two identical filter sections. Each section has a dropdown menu currently set to "Is equal to", followed by an empty input field with a calendar icon to its right. Between the two sections is a dropdown menu set to "And". At the bottom of the menu are two buttons: "Filter" and "Clear". Three arrows point from the text on the right to the dropdown arrows of the first and second "Is equal to" menus, and the "And" dropdown menu.

Within this filter menu (drop-down menu) you can also choose different options by clicking on the black, "down" arrows.

Step 2.5

When you want to find out more information relating to this consignment, click on the magnifying glass.

By doing this you can see the actual consignment details, and the following screen will appear:

Mon
03.07.

11:27 AM
7/3/2017
POD available

Sender (10385)

Consignee (2123674)

Detail id	Reference	Content	Packages	Package id	Weight	Length	Width	Height	Loading meter
1	90560115	PC	1	COLL		1			

Within this environment you can find all the details you need.

To the left of the yellow, numbered fields you can see described the last known status.

You can also see that this consignment has been through steps step 1 to 5. All the fields are yellow instead of grey. Under the yellow fields you can find various details.

You can see the following column headings in blue: 'General' / 'Status history' / 'Texts' / 'Documents' / 'Map'. We would like to take a closer look at these.

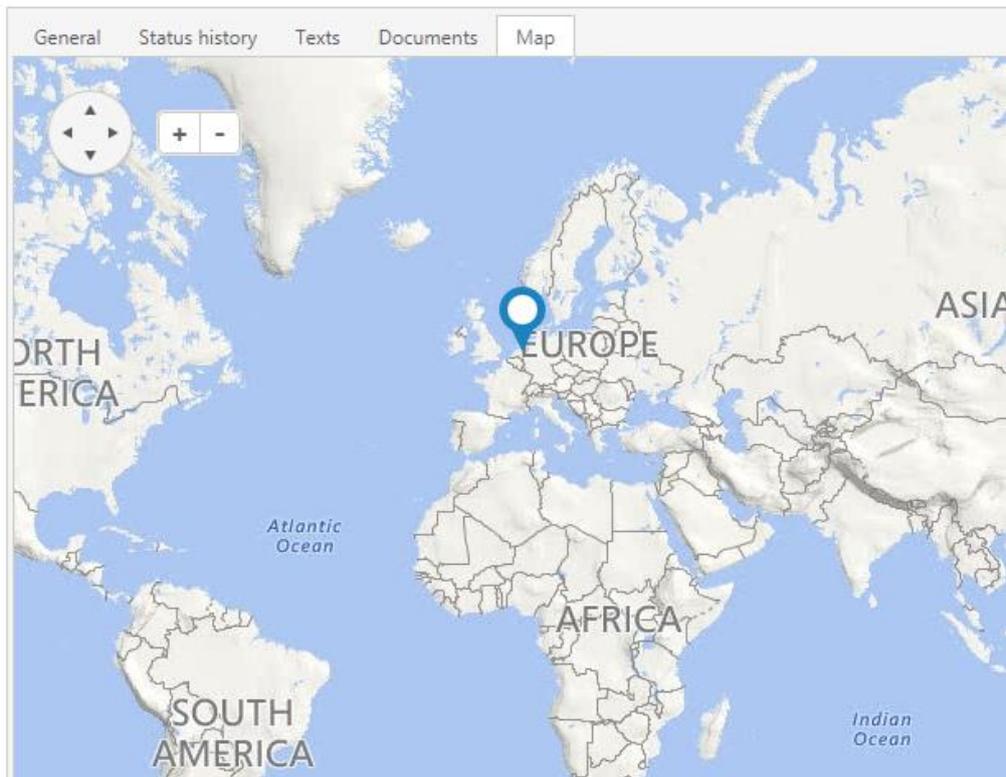

In the field “**General**” you can see, at package level, the way in which the consignment is built up.
